How To:

- 1)Open file in latest version of Adobe Acrobat Reader
- 2) Type desired text into the text boxes
- 3) Print desired number of cards
- 4)Cut on guidelines and font

***You MAY NOT be able to save this file after you enter the text. I say "may not" because I noticed some are able to save, some have to enter a signature to save and for some it won't allow saving at all.

So you would need to print the file after entering your desired text. 4
The original file can be save to your computer to be used again and again***

Recommedations:

For the food labels I recommendusing 80lb card stock or full sheet label paper.

For best results set your printer to borderless printing and the highest quality printing.

You can display the cards folded or you can cut in half and use as labels on cardstock or sticker paper.

Items Needed (depending on use):

- Bright White Cardstock or Label Stock
- Scissors and/or paper cutter

**Every printer is different. Please review your printer's user manual for specific printer settings.

Print on bright white cardstock. Cut on guidelines with a paper cutter for best results.
