

Printable Holiday Alphabet Banner Flags ☀️☀️☀️ From HeyYoYo.com

Print as many sheets as desired on matte photo paper (yields the most vibrant colors) or letter-size bright white paper. Cut out the diamonds. Use a straight edge and paring knife to score across center back, taking care not to cut through paper. Fold in half to make into triangles. Apply double-sided tape to the back of one side of flag, leaving fold line untaped. Bend the flags around a piece of twine or string, creating a back and front. Space flags along string as desired.
