

thank you! for ordering from our party package collection and for allowing us to be part of your next celebration!

here are some instructions, tips and recommendations to print, cut and assemble the perfect party for your loved one! so, let's get started...

LIST OF MATERIALS

- PDF reader or Adobe Acrobat (a free download at adobe.com).
- printer.
- 8½" x 11" premium-quality photo paper or heavy bright white paper (cardstock).
I recommend using premium-quality photo paper (semi-gloss) for professional looking results.
- 8½ x 11" label paper for stickers (optional).
- scissors or paper cutter.
- 2" circle craft punch, either scalloped or round. can be found at Michael's or any craft store.
- double sided tape or hot glue.
- hole punch.
- ribbon for banner.
- lollipop sticks for cupcake toppers.

PRINTING

- for best results, set the paper type in your printer drive, if the paper is not listed, choose the best quality printing option.
- select "none" or "do not scale" under the page scaling option unless you specifically want to print out the tags smaller.
- select the "borderless printing" option (if available) under the page settings dialog box.

ASSEMBLY

BANNER:

- print the sheet on 8.5x11 photo paper.
- hand-cut along the design with scissors.
- use a small hole punch to perforate a hole in each side of the tag.
- insert ribbon through the hole of the first letter, after inset it through the next letter and tie them together.
repeat for each letter.

CUPCAKE WRAPPERS:

- print the sheet on 8.5x11 semi-gloss photo paper (I recommend using semi-gloss photo paper to prevent moisture/grease showing up from the cupcake).
- cut along the design.
- close with double sided tape or hot glue.
- carefully insert cupcake.
- these wrappers are designed for a standar cupcake size. for mini cupcakes simply cut the wrapper in half.

FAVOR TAGS:

- print the sheet on 8.5×11 photo paper.
 - cut along the design.
 - use a small hole punch to perforate a hole on top of the tag.
 - insert ribbon through the hole and tie it onto the favor bag.
- tips: favor tags can also be used to tie them onto bottles.

FOOD LABEL TENT CARDS OR FAVOR TAGS:

- print the sheet on 8.5×11 photo paper.
- cut along the design following the trim marks.
- fold in half.

MINI HERSHEY'S WRAPS:

- print the sheet on 8.5×11 label paper or photo paper (thicker paper or heavy cardstock may be slightly more difficult to keep closed).
- wrap snugly around the candy bar.
- close with double sided tape, hot glue or stick label paper onto candy bar.

PAPER PATTERN:

- print the sheet on 8.5×11 photo paper.
- cut as needed.

tips: paper patterns can be used as decorative linnen, plate and table embellishments, wrapping paper and more.

PARTY FLAGS:

- print the sheet on 8.5×11 photo paper.
- cut along the design.
- wrap it around straw, secure it and stick the ends together with double sided tape.

tips: party flags can also be used as cake pop or straw flags, wine glass embellishments, toothpick toppers and more.

PARTY SIGN:

- print the sheet on 8.5×11 photo paper.
 - use a small hole punch to perforate a hole on top of the sign.
 - insert ribbon through the hole and tie it onto the door.
- tips: the party sign can also be framed and place on a table.

PARTY TAGS:

- print the sheet on 8.5×11 photo paper.
 - for round design, cut using the circle craft punch. when using punches, turn the punch upside down so you can center your circle on the square logo correctly.
 - for square design, cut along the design using paper cutter.
- tips: party tags can also be used as favor tags, cupcake toppers, container embellishments, garland gift tags and more.

THANK YOU CARDS:

- print the sheet on 8.5×11 heavy bright white paper (cardstock).
- cut along the design following the trim marks.
- fill it out with a grateful note and send it with lots of love.

WATER BOTTLE LABELS AND SODA BOTTLE LABELS:

- print the sheet on 8.5×11 water-proof label to ensure no ink bleed (if you don't have water-proof paper try securing your personalized label to the bottle with clear contact adhesive paper to protect the paper from moisture or use semi-gloss photo paper for room temperature water).
 - peel off the water bottle label.
 - wrap snugly around the bottle.
 - close with double sided tape, hot glue or stick label paper onto bottle.
- tips: water bottle labels can also be used as a napking ring, container wraps and more.
